Summary

Self-starting and resourceful Full Stack Developer with military and audit experience. With training in implementing front-end and back-end coding, I am astute and always-learning. On group projects, I brought focus to design for user interactions on websites and databases.Understands website functionality and coding for multiple platforms and meticulously creates fully functional code. Experienced in communicating clearly with others, both technical and non-technical team members and promoting drive towards end-user needs
.

Full Stack Developer Training with University of Minnesota *Mar 2021 - May 2021*

• Learned languages: HTML, CSS, and Javascript
• Environments, libraries, and frameworks including: Node.js, Express, React, Handlebars
• Other subjects included: APIs, Model-View-Controller, Object-Relational-Mapping, MySql, MongoDB
• Intensive 12 week course with 2 assignments a week, and 3 group projects
• Success has meant committing to a 40+ hour work schedule and building relationships with classmates

Projects

Project 1 - Modern Mornings - JS, CSS, HTML - News and Reddit search site
• Did API calls to Gnews.Io and quoteblock, styling news cards, and building a carousel
• Led the group project in both direction and assessing team skill sets
• Project met desired goals, carousel was cool contribution to add, but took time away from adding search options

Project 2 - Daycare CRM - JS, PDFKit - CRM system for daycare providers to track family information
• Built and designed invoice with PDFkit and used javascript to feed information to it dynamically
• Provided overall concept and worked with partners to scope the project, and determine necessary technologies
• Goals were a bit high at the start, and had to be scaled back. Still a successful MVP, but several bugs remain.

Project 3 - Swap - React, Bootstrap, Axios - Social media platform for the zero energy swap enthusiast.
• Created the base components, as well as, the functionality of the comments and filter bar.
• Led the pace of the project, handling role assignments, and short term deadlines.
• Project came out feeling exactly like what we wanted, minus a favorites feature, due to losing a team member

Certificates and Education

Full Stack Developer - University of Minnesota Certificate *May 2021*
Certified Internal Auditor – Certificate #159480 *Mar 2018*
